

Tip for : Zaptec charger

We recommend the following configuration tips when you try to configure the Smartmaster Pro with a Zaptec charger

1

Use Zaptec web portal" =>Place the URL : ws://{SMARTMASTER_IP_ADDR}:8834/ocpp under "Settings" and then "Authentication" in the submenu.

2

Activate the "OCPP 1.6 Authentication" field.

3

Don't forget phase rotation in the primary phase (Cluster 1 => L1, Cluster 2 =>L2,..)

4

Activate the "Authorization required" field.

5

Important: the station must be restarted after saving the parameters.
